Introducing the **PRE-APPRENTICESHIP PROGRAMME**

Cleaning Hygiene Operative Pre-Apprenticeship

What is a Pre-Apprenticeship Programme?: A pre-apprenticeship programme is a stepping-stone to get into the cleaning industry. In most cases, people undergo a pre-apprenticeship before commencing on a full apprenticeship to prepare them for the working environment. As well as this, pre-apprenticeships can help to improve your existing skills and pave the way for your learning as a part of your further studies.

A major advantage of undertaking a pre-apprenticeship is that you are effectively completing the first stage of apprenticeship study.

Course Content:

- **Employability skills**
- **CV writing**
- **Job search**
- **Interview skills**
- **ICT**
- **Cleaning Science**
- **Practical Cleaning Skills**

It will also give you a head start on the cleaning industry, granting you a competitive edge when it comes to finding employment. This will mean less time in the classroom and more time for the employer to give you practical tasks that will contribute to the business operations and your learning.
